

TAPCODE SWIVEL WALL MOUNT

Features:

- Durable all-steel construction
- Available in Black or Silver
- Adjustable tilt +15/-5 Degrees
- Hook-on design for ease of installation
- Distance from wall: 1.66"
- Weight Capacity: 115 lbs
- Dimensions: 6.2" H x 5.15" W

The SmartMount Universal Tilt Wall Mount for 13" - 37" screens offers 5 degrees upward and 15 degrees downward tilt. Tilt adjustment is very smooth and can be done easily with no tools required, or the tilt can be tensioned to restrict movement of the screen. It ships with a VESA 75mm/100mm and an additional plate for larger screens using 100mm x 200mm and 200mm x 200mm mounting patterns. It has a weight load capacity of 115 lbs on a single wood stud or concrete and uses one pre-installed fastener point for safety/security. Metal stud mounting requires an accessory metal stud wall fastener pack (ACC215).
